Details

Description

The new and perspective Latvian women footwear company specialises in the manufacturing and designing of shoes. The company is the participant of the Creative Industries Incubator in the capital city of Latvia - Riga.

The main characteristics and sign of identity for these shoes is/will be further manipulations (hand and/or machine; applications, embroidery from different materials, sewings with stones, accessories of different types, etc.).

At present they are working on creation of prototypes. The future plan is to make two collections each year - summer and winter collections. For the first year the company has planned to produce at least 140 pairs of shoes.

Thus the company is looking for shoes' manufacturers who would be able to offer 6-10 different models of shoes with different style heels, materials and fabric manipulations under a manufacturing agreement. The first order would be approximately 30 pairs (3 pieces of each model). Partner would be also involved in generation of ideas and finding practical solutions for such manufacturing.

The pictures attached present the types and models planned.

Advantages and Innovations

The shoes will be of unique design and the collections will be in limited editions. The shoes are accessorised by handwork.

Technical Specification or Expertise Sought

The company is looking for different models of shoes (different style heels, materials and fabrics (leather, silk, etc.) The first order would be not more than 30 pairs. In case of successful co-operation the planned order for the first year would be at least 140 pairs.
