General Information

Short summary

A Polish SME is looking for suppliers of wine bottles. The firm sells i.a. wine from barrels and thus needs appropriate containers allowing customers to take the product home. It is interested in 1L and 2L glass and PET bottles suitable for alcoholic beverages and allowed to contact food products. The firm would prefer elegant and stylish, one-of-the-kind bottles.

Full description

A company from northwestern Poland specialises in wine import and distribution. The firm targets wine lovers with refined tastes. It advises them and helps them select the best wine for their preferences. Focusing on the client's experience, they also like to provide additional details on the product, e.g. vineyard history, information on the winemaker, the region of origin and other interesting facts. Therefore, the company prefers to work with craft winemakers and get to know them closely. The firm specialises in Central and Eastern European wines from Poland, the Czech Republic, Slovakia, Moldova, Georgia and, most importantly, Hungary. It has extensive international experience working with producers from these countries.

The company sells both wines in bottles and directly from barrels. The firm requests bottles to pour the wine into and allow customers to take the product home and then reuse the bottle. The company is interested in glass and PET bottles, suitable for contact with alcoholic beverages. It prefers stylish, uniquely-design 1L and 2L bottles. The firm requests cooperation within the framework of the supplier agreement.

Advantages and innovations

Technical specification or expertise sought

The firm is looking for experienced, financially stable and reliable partners able to supply the following wine bottles:

- glass or PET (the material must be allowed for contact with food products);
- 1L and 2L large;
- with a stylish, unique design.
